

3F Diving's Galapagos Adventure

November 20-27, 2025

Aggressor Galapagos III

Renowned as one of the top dive destinations in the world, Galapagos is highly exclusive. Very few live aboards are allowed to operate in this pristine marine park and we have secured the famed Aggressor Galapagos III. Some parts of the itinerary are controlled by the marine park, however we are targeting having a full charter so we can prioritize dive sites which fit best for our group as we traverse along these extraordinary islands.

Life in the Diverse Galapagos Ecosystem

Underwater we will witness swimming iguanas, mola mola, whale sharks, manta rays, and more on our 18 dives. This shoulder season week, although a higher cost option, allows us to see marine life that flourish both in the cold and warm seasons. We will maximize sightings of spectacular schooling hammerheads along with chances at spotting the elusive orcas (fingers crossed!).

In addition to top-notch safety, amazing dive crew and astounding food, the Aggressor boat includes a certified land excursion guide. Not found easily, these guides allow us to take land-based excursions to see fascinating species such as the blue-footed booby and giant tortoises.

Priced at \$6,999 per person*

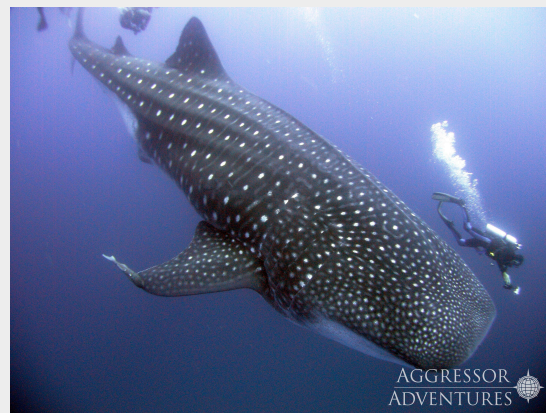

Reserve your space today with a \$150 deposit**

Stay tuned for details on extending our adventure to visit the ancient city of Cuzco atop the Andes Mountains where we will explore the extensive Inca ruins including the unforgettable Machu Picchu.
